6. Definitions

Net Revenues

Net Revenues shall mean the total revenues for all trading and clearing fees for all order book, TES and Enlight transactions according to the Price List of ECAG as amended from time to time exclusive of any tax, levy, duty or similar governmental surcharge. For the calculation of the Net Revenues, granted incentives will be deducted (e.g. volume rebates, market maker rebates, allowances, revenue sharing or other customer incentives) as well as any revenue sharing scheme with a partner exchange. Additionally, any license fee paid for the permission to list and trade the respective products as well as any non-recoverable or non-creditable value added tax or similar tax borne by EFAG and/or ECAG will be deducted. For the avoidance of doubt, ECAG alone shall have the right to determine the fees that it charges for its services, both gross and net, as well as any incentives and/or rebates it may offer.
