

Identification of Initial Margins Eurex Clearing

Mapping Guide

Table of Contents

01 BACKGROUND

02 GENERAL SET-UP

03 REPORT MAPPING

1 Background

Objectives & Approach

Identification of Margin Requirements

Allocate margin requirements to the different business lines

Back charging of costs

Collateral provision results in collateral fees. Those should be traceable to the liquidation group / business lines

Collateral Provision

Collateral provision and segregation per business line would be preferred to trace back to the related costs.

Shortcoming

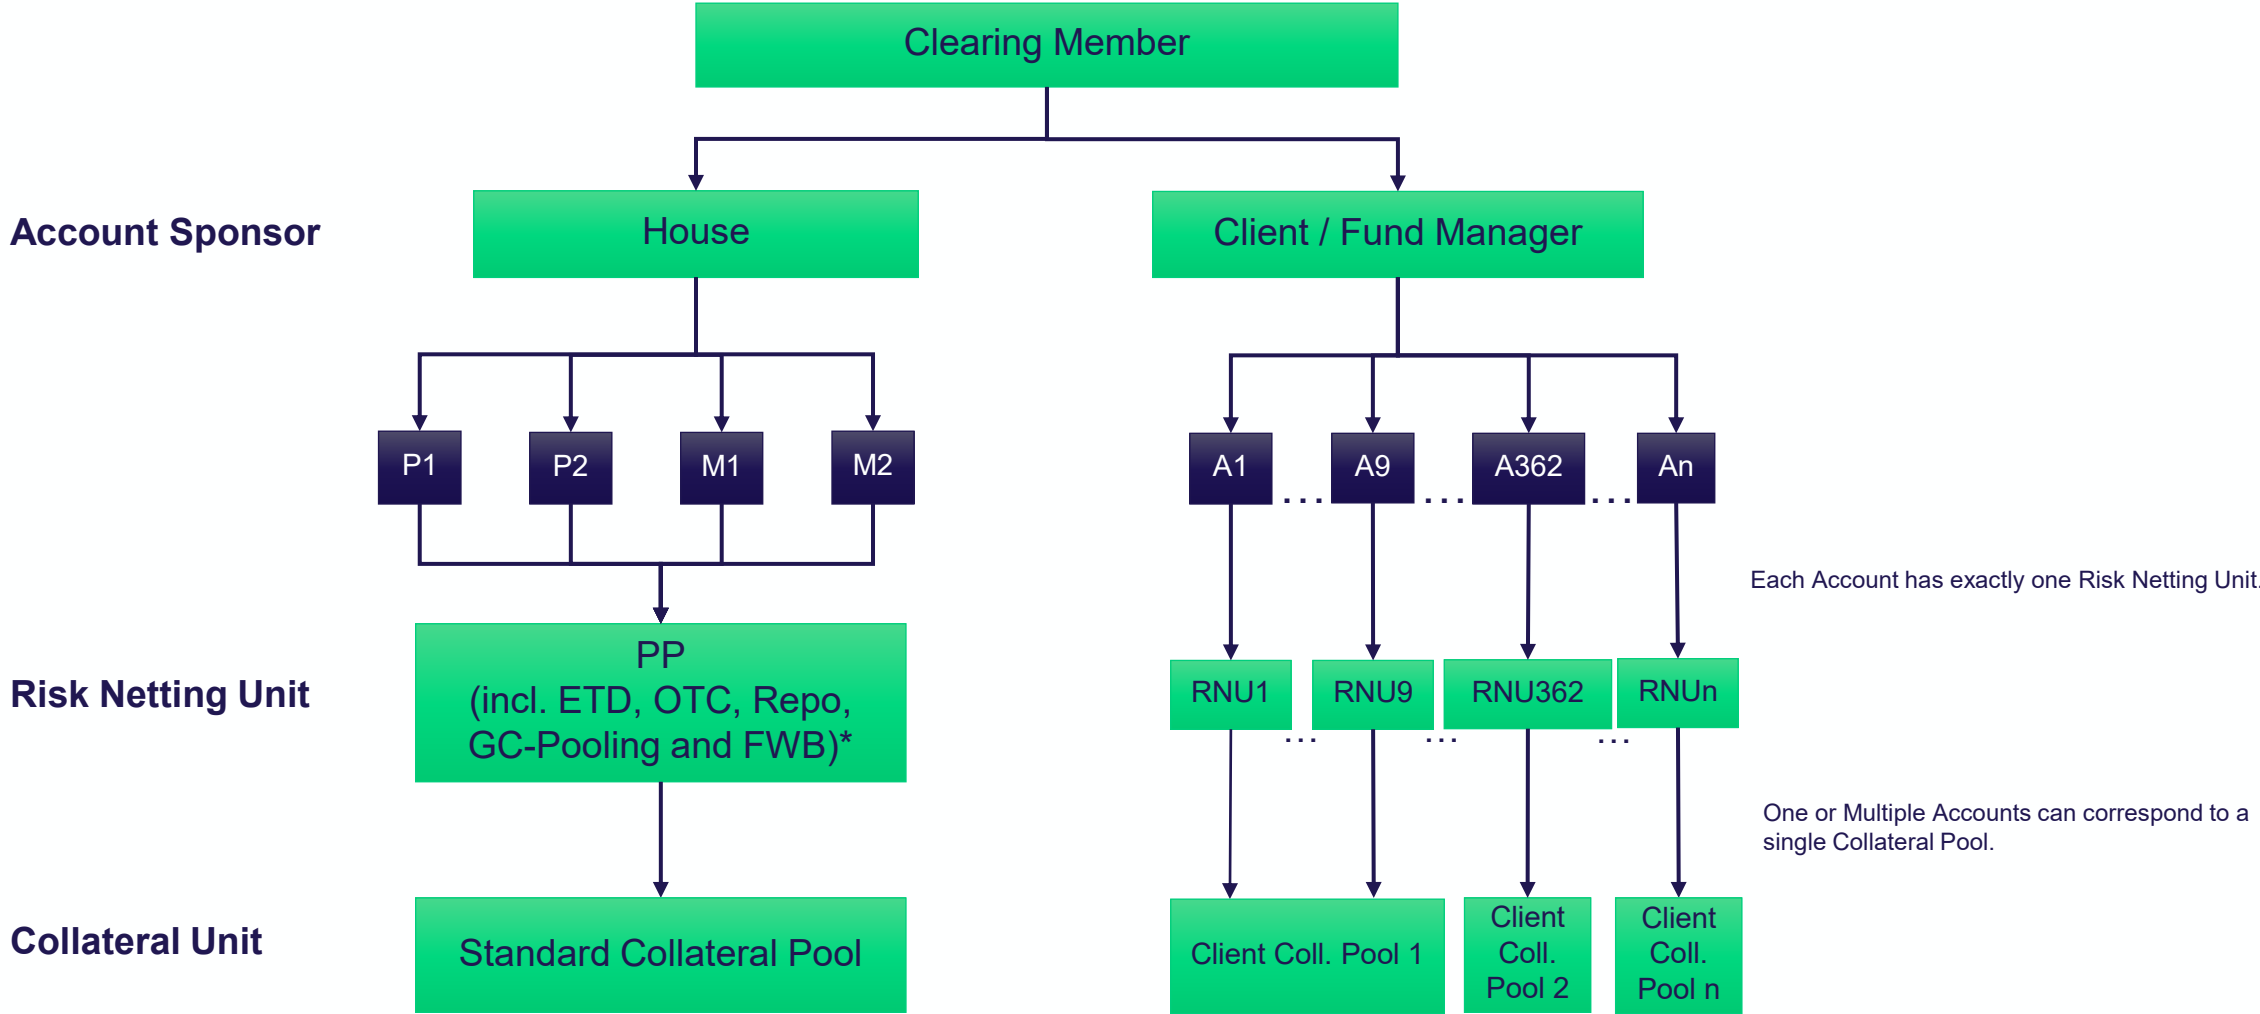

Segregated collateral provision for prop business could come together with several shortcomings including no availability of cross product margining, higher collateral provisions necessary / increased amount of intraday margin calls.

Approach to Margin Allocation

- Pro rata allocation using reports
- Partial enhancement of reports with asset class information

2 General Set-up

Clearing Members Account Structure

The mapping between accounts and pools is visible on all related reports and on the C7 GUI

Liquidation Groups Overview

Liquidation Group Name	
PEQ01	Listed Equity (Index) Derivatives Liquidation Group
PFI01*	Listed Fixed Income Liquidation Group
PCM01	Commodity (Index) Derivatives Liquidation Group
PPM01	Precious Metal Derivatives Liquidation Group
PFX01	FX Derivatives Liquidation Group
PNF01	FX NDF Liquidation Group
PEF01	Derivatives on Fixed Income ETFs Liquidation Group
PCY01	Crypto Derivatives Liquidation Group
PBN01**	Bond Liquidation Group

*Further contains all OTC Interest Rate Derivatives (IRS) transactions (according to the Clearing Conditions Chapter VIII) in products as described on the Eurex OTC Clear IRS webpage.

**Additional Bond Liquidation Group defined for Default Management purposes (auctions and default fund segmentation). Contains all Special Repo transactions and all GC Pooling transactions excluding the GC Pooling Equity Basket. This is a legal liquidation group and has no impact on margining.

▪ Definition

A liquidation group combines cleared products across markets cleared by Eurex Clearing that shares similar risk profiles.

▪ Sources and Manuals:

- Eurex Website:
[Risk Parameters](#) -> [Liquidation Groups](#)
- The Transparency enabler files in the Common Report Engine (CRE): Theoretical Prices and Instrument Configuration (**THEOI**) provides theoretical prices that reflect hypothetical returns over the n-day liquidation period of the respective Liquidation Group. It includes structured descriptions of instruments, covering product and asset types as well as days to expiry. It also contains the mapping of instruments per Liquidation Group, including Liquidation Group Splits and FX Rates.

Margin Classes Overview

Definition

- Margin classes are relevant only for Risk-based Margining
- Respectively they are relevant only for the calculation of margin for cash market
- The different margin classes are summarized in margin groups
- The lists of margin classes and margin groups can be found on the website:
 - [Margin Classes for Bonds.](#)
 - [Margin Classes for Equities.](#)

Reports

- In the reports CI050 and CI030, the margin classes and respective groups are available.
- For OTC and ETD Derivatives there is no margin classes in the report; the respective Liquidation group is reported in the field for Margin group.
- All other reported Margin Classes belong to Equities or Bonds as per the documentation on the website.

3 Report Mapping

Mapping Example Overview (Standard Collateral Pool)

In the following slides, we will illustrate the mapping process using a **general example with dummy data**.

- **Member ID:** ABDFR
- **Hypothetical Date:** January 1, 2025
- **In Scope:** P Accounts, PP Risk netting Unit (RNU), and Standard Collateral Pool only

This example provides mapping for:

- Total Margin Requirement
- Collateral
- Securities Collateral Fee
- Cash Handling Fee

Assumptions

- ISA is not considered in this analysis
- Omnibus Accounts are not considered

Mapping Example Overview (Client Collateral Pool)

In the following slides, we will illustrate the mapping process using a **general example with dummy data**.

- **Member ID:** ABDFR
- **Hypothetical Date:** January 1, 2025
- **In Scope:** A Accounts and Client Collateral Pool only

This example provides mapping for:

- Total Margin Requirement
- Collateral
- Securities Collateral Fee
- Cash Handling Fee

Assumptions

- ISA is not considered in this analysis

Breakdown

Identification of the Total Margin Requirement using CB236.

CB236 Daily Security Collateral Coverage

Overview

- **Description:**

The Daily Security Collateral Coverage Report provides daily, per collateral pool, the end of day margin requirements per Risk Netting Unit and Liquidation Group in relation to the securities collateral fee.

In addition, the usage of cross margining and the margin multiplier for the fee calculation is shown.

The report is available for EUREX/ECAG Members.

- **Source:** Eurex XML Reference Manual on the [Eurex Clearing Website](#)

Breakdown

CD042 Daily Settlement Statement

Overview

- **Description:**

This report describes the daily settlements. It lists the necessary margin requirements, pledged cash and security balances and the cover credits and debits. The "over/under" cover values by currency are converted into the collateral pool currency and summed to calculate the net margin profit or deficit.

Only for fully segregated DC Market Participants this report will contain data. For omnibus segregated DC Market Participants as well as not segregated DC Market Participants this report will always be empty. Entries for currencies with empty (zero) values will be omitted. However, the entry in the clearing currency will be available. i.e: If all the following fields are with zero value for a non-clearing currency (recA_secuTotBalAmnt), (recA_guarTotBalAmnt), (recA_cshCollAmnt), (recA_mgnReqrAmnt), the entire row will be omitted.

The report is available for EUREX/ECAG Members and EEX/ECC Members.

No Text version is available for CD042.

Breakdown

CD230 Monthly Interest Report

Overview

▪ Description:

This **monthly** report shows **the interest earned on cash collateral** held with Eurex Clearing or ECC and **the respective cash handling fee**, summed up for each calendar day, and aggregated for the month. The report is generated per pool ID ('poolID'), type of money ('typeOfMoney') and currency ('currTypCod') once the interest is calculated and posted.

The report shows the ending balances of the interest earned on cash and the cash handling fee ('intErnCshBalAmnt', 'feeCshBalAmnt'), the applied interest and fee rates ('intErnRatPct', 'feeRatPct'), the calculated values of the interest and **fee for each calendar day** ('dlyInErnAmnt', '**dlyFeeAmnt**'), their sum ('dlyIntAmnt'), and an overall value for the month ('sumCurrDlyIntAmnt'). It also shows the accrued net interest to date ('aggAmntToDate'). In addition, the report shows the details of the effective transactions at CM level ('trnCurrTypCod', 'trnValDat', 'trnAmount'). The outcome can be either i) credit of interest earned after deduction of the cash handling fee (if 'trnAmount' is positive) or ii) a payment to Eurex Clearing or ECC (if 'trnAmount' is negative). The cash handling fee is not applicable to ECC. The CM's version of the report contains all pools of the CM and its DC Market Participants at ECAG as well as all pools of their ISA Direct members at ECAG. The ISA Direct members at ECAG will receive the report displaying their pools. The data at DC Market Participant level is provided only if they are fully segregated. For other clients the report will be empty.

The report is available for ECAG and ECC Members.

CD231 Daily Preliminary Interest Report

Overview

▪ Description:

This **daily** preliminary report shows the interest earned on cash collateral held with Eurex Clearing or ECC and the respective cash handling fee, summed up for each calendar day, and aggregated to date. The report is generated per pool ID ('poolID'), type of money ('typeOfMoney') and currency ('currTypCod') and is provided every business day.

The report shows the ending balances of the interest earned on cash and the cash handling fee ('intErnCshBalAmnt', 'feeCshBalAmnt '), the applied interest and fee rates ('intErnRatPct', 'feeRatPct'), the calculated values of the interest and **fee for each calendar day** ('dlyInErnAmnt', '**dlyFeeAmnt**'), their sum ('dlyIntAmnt'), and the accrued value for the current month ('sumCurrDlyIntAmnt'). It also shows the accrued net interest to date ('aggAmntToDate'). In addition, the report shows the preliminary details of the expected transactions at CM level ('trnCurrTypCod', 'trnAmount'). The outcome can be either i) credit of interest earned after deduction of the cash handling fee (if 'trnAmount' is positive) or ii) a payment to Eurex Clearing or ECC (if 'trnAmount' is negative). The cash handling fee is not applicable to ECC. The CM's version of the report contains all pools of the CM and its DC Market Participants at ECAG as well as all pools of their ISA Direct members at ECAG. The ISA Direct members at ECAG will receive the report displaying their pools. The data at DC Market Participant level is provided only if they are fully segregated. For other clients the report will be empty.

The report is available for ECAG and ECC Members.

The CD231 report is a daily report that displays the Cash Handling Fees incurred on the previous day. This report can be utilized when to directly distribute and **allocate the Cash Handling Fees on the same day**. Nevertheless, it is recommended to rather use the monthly report CD230 with final amounts per day. The daily interest amount to be paid is calculated as $dlyIntAmnt = dlyIntErnAmnt + dlyFeeAmnt$, where $dlyFeeAmnt$ is always a negative value.

Enhanced CD710 Daily Cash Account

Description

This report contains the details of balances and transaction amounts of the cash account.

The report is available for EEX/ECC Members and ECAG Members.

Source: Eurex XML Reference Manual on the [Eurex Clearing Website](#)

Enhancement implemented in May 2025

- New field “Asset Class” (field name: AS - assetSource) was introduced to enable the identification of asset class for cash instructions with a clear origin.
- For cash instructions aggregating payments from different asset classes such as intraday margin calls, excess collateral pool transfer or quota cash positions for EMIR liquidity compliance the type “All Asset Classes” applies
